

The Time Thief Breakdown

Data reveals that the average Lab Ops team loses roughly one full day per week to manual administrative loops. Here is exactly where those research hours disappear:

35%

The Tracking Trap

Manually processing order confirmations with physical deliveries and laboratory inventory levels.

2.8 HRS LOST

25%

The Inbox Audit

Chasing suppliers via email for lead times, backorder updates, and pricing discrepancies.

2 HRS LOST

25%

THE PAPER TRAIL

Manually matching invoices to Purchase Orders (POs) to find the best price or a specific chemical alternative.

2 HRS LOST

15%

The Search Burden

Sifting through disparate catalogs and historical spreadsheets to find the best price or a specific alternative.

1.2 HRS LOST

52 RESEARCH DAYS RECLAIMED A YEAR
